Career Objective

Final-year B.Tech student (2027) with hands-on experience in Java, Spring Boot, REST APIs, API management, and SQL-based systems. Seeking a Software Engineer role to apply backend development and troubleshooting skills in a customer-facing technical environment, with strong problem-solving and communication abilities.

Education

Pranveer Singh Institute of Technology, Kanpur

2023 – 2027

Bachelor of Technology in Computer Science Engineering | Percentage: 81.3%

Technical Skills

- **Programming Languages:** Java, Python, SQL, JavaScript
- **Core Subjects:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
- **Backend Development:** Spring Boot, REST APIs, API Management, Hibernate/JPA, JWT Authentication
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Developer Tools:** Git, GitHub, Postman, IntelliJ IDEA, VS Code, Docker
- **Soft Skills:** Communication, Presentation, Team Collaboration, Problem Solving, Customer Support, Mentoring, Time Management

Experience

Infosys — Backend Developer Intern

Feb 2026 – Apr 2026

Java, Spring Boot, Hibernate, MySQL, JWT, Postman

- **Developed** the backend of ParkEase – Smart Parking Management System using Java, Spring Boot, Hibernate, and MySQL.
- **Built** and tested 12+ REST APIs for user login, booking management, and payment modules.
- **Managed** API versioning, request validation, and response formatting for consistent integration.
- **Implemented** JWT Authentication and role-based security to protect user and admin data.
- **Optimized** SQL queries and used Hibernate Lazy Loading to improve database fetch performance.
- **Resolved** backend bugs and API errors identified during integration testing.
- **Documented** and tested all backend APIs using Postman for smooth frontend integration.

Projects

Health Report Analyzer

March 2026 – Present

Java, Spring Boot, Spring AI, React.js, MySQL — Live Demo

- **Built** a full-stack app to upload and analyze medical health reports using AI-generated insights.
- **Integrated** Spring AI to parse unstructured report text and generate readable summaries.
- **Implemented** backend validation and error handling for reliable file processing.
- **Developed** a React.js frontend for uploads and clean result display.

TransitOps – Smart Transport Operations Platform

April 2025 – July 2025

Java, Spring Boot, React.js, PostgreSQL

- **Developed** scalable REST APIs for vehicle tracking, route management, and passenger booking.
- **Designed** PostgreSQL schemas to manage vehicles, routes, drivers, and bookings.
- **Implemented** JWT Authentication with role-based access for admin, driver, and passenger roles.
- **Tested and debugged** backend services to improve stability before integration.

Coding Profiles

- Solved **300+** **Data Structures and Algorithms** problems on platforms like LeetCode and GeeksforGeeks.
- Strong understanding of Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Binary Search, Hashing, Recursion.
- Regularly practice coding problems to strengthen problem-solving and logical thinking skills.

Certifications

- Infosys Springboard – Java Programming
- Fundamentals of Machine Learning and Artificial Intelligence – AWS Training & Certification
- ChatGPT for Data Science and Machine Learning – Udemy
